Wylie Independent School District Achieve Academy 2023-2024 Improvement Plan

Mission Statement

The Achieve Academy, in partnership with Wylie ISD and the community, will provide every student individualized, high-quality academics and success skills to prepare them for positive and constructive lives.

Vision

To create a culture of accountability, where students experience academic success and are exposed to attributes in life that will lead to individual success.

Value Statement

At Achieve Academy we believe that:

Every student has the potential to be successful.

Every student deserves respect and the opportunity to learn and grow.

Our success is determined by our own efforts.

We can positively impact our community by serving others. Giving is more important than receiving.

We will help all students recognize their own strengths, value, and potential.

We will teach our students various methods to learn and solve problems.

We will model our values and beliefs through our own words and actions.

We will model a growth mindset for our students by continually learning and growing ourselves.

We celebrate our individual differences, because unique individual strengths make our team stronger as a whole.

Comprehensive Needs Assessment

Needs Assessment Overview

Needs Assessment Overview Summary

Our goal is to meet students where they are academically and nurture them to getting back at grade level (based on credits) or graduated. We have two main academic hurdles that prohibit student success; Math and English. We try and get as many students as possible to graduate on the Foundation High School Plan with an endorsement. Our counselor works with each student to formulate a graduation plan that meets his or her goals. If the student is in their fourth or more year of high school, and is behind in credits, most likely the focus will be to graduate with the Foundation High School Plan without an endorsement (22 credits in lieu of 26). We are laser focused on getting students to graduate with their cohort, if possible.

We will provide additional support for those students that struggle to be successful in English EOC testing. Our support will be targeted for those students that are indentified as high-risk of not passing an English EOC.

Our students need structure and accountability. They need close supervision and direction in order to stay on task and complete the work. They need notebooks provided for each class so they can take notes and refer back during tests and quizzes. They need expectations placed upon them and processes in place to support those expectations. A significant amount of one on one, tutoring, and support in the classroom is needed. Our students need exposure to career opportunities through field trips and mentors.

Demographics

Demographics Summary

Achieve Academy serves Wylie ISD through two specific programs as follows:

- 1. Achieve Credit Recovery and Choice Program: alternative high school to meet student needs in credit recovery and accelerated instruction.
 - Learners who have been retained one or more grades in high school.
 - Learners who want to accelerate in their graduation plan.
 - Over-age learners who have dropped out of school and are returning.
 - Learners who are married, pregnant, and/or teen parents.
 - Learners who have been in a residential placement facility, substance abuse treatment facility, et cetera.
 - Learners with extenuating family or health circumstances necessitating an accelerated education.
 - Learners with extenuating circumstances that put them at risk of not completing their high school education.
 - No first-time freshmen are allowed into the program.
- 2. Disciplinary Alternative Education Placement: Students are served in this program for a specified number of days due to disciplinary infractions. This is a highly structured setting, with students having limited interaction and privileges and students earning progress toward their placement with appropriate behavior. The students in this program come and go frequently throughout the year on an ongoing basis.

PEIMS data for Achieve Academy for 2022--2023 school year:

At-Risk: 94%

Special Education: 21%

ECD: 45%

For the 2022-2023 school year, Achieve Academy had a total of 307 students placed in DAEP.

	DAEP Students Served by Grade I	Level
Grade Levels	Total # of Students	Percentage
3rd-6th	43	14%
7th – 8th	73	24%
9th -12th	191	62%

Type of Placement	% of Students Served at DAEP
Discretionary	10%
Mandatory	90%

Student mobility for this campus is extremely high due to several factors. First, the Choice program enrolls and withdraws on an ongoing basis throughout the year as students need

credit recovery and as students graduate from the program. Secondly, DAEP students are temporarily placed on our campus for a period and then return to their home campus.

Student Subpopulations for 2022-2023 school year:

White: 41%

Black: 12%

Hispanic: 35%

Asian 5%

Two or more 6%

Demographics Strengths

We have worked in a collaborative fashion with Wylie High and Wylie East High Schools to ensure that students that are recommended for placement in Choice High School meet the guidelines for placement. In addition, the process for placement has been solidified paving the way for a smooth student transition into an alternative educational environment.

This school year we have approximately 70% of our students in their fourth year or more of high school. These fourth year plus students tend to be more motivated to earn credits than younger students.

The Credit Recovery/Choice program has had to change to meet the needs of a larger, more diverse group of struggling learners. Very few students in the program are on track to graduate on time/early. Students in the program are largely struggling academically/emotionally and/or behaviorally. We have found that students do better overall when they change classes periodically to experience different teachers, classmates, and relationship opportunities. This strategy tends to meet the needs of our diverse student population and learning styles. The master schedule enables for smaller groups of students with a content area teacher for instruction that is more direct and intervention oriented. We have a campus interventionist that coordinates interventions for students. We have a leadership team that meets weekly to track student progress and determine intervention strategies.

Problem Statements Identifying Demographics Needs

Problem Statement 1: The overwhelming majority of the student population at Achieve Academy is here a relatively short period of time. **Root Cause:** This is the nature of an alternative educational environment with discipline placements and credit recovery. (Comprehensive-TIP)

Student Learning

Student Learning Summary

For school year 2022-2023, Achieve Academy graduated 95 students. Fourth year plus students that were in jeopardy of not graduating were targeted for enhanced accelerated instruction. These students were pulled throughout the day and tutored, or received other interventions, to accelerate the learning process. Last school year, 86 total students (all grade levels) received intervention services. We will once again begin the intervention process the first week of school with tutoring beginning the second full week of school.

For the 2022-23 school year, Biology had 8 students take the EOC with 13% Approaching Grade Level, and 50% Meets Grade Level (63% total pass rate). US History had 58 students test with 28% Approaches Grade Level, 47% Meets Grade Level, and 19% Masters Grade Level (94% total pass rate). English II had 26 students test with 19% Approaches Grade Level and 42% Meets Grade Level (61% total pass rate). English I had 11 students take the EOC with 36% Approaches Grade Level 27 Meets Grade Level (63% pass total pass rate). Alg. I had 5 students take the EOC with 80% Approaching Grade Level (80% total pass rate).

Student Learning Strengths

Our graduation rate was 98% for school year 2022-2023. Students earning credits was our greatest strength.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: Our students struggle in two main areas: math comprehension and reading/writing critically. **Root Cause:** Most Achieve Academy students are not strong academically and these two areas are the most difficult to master.

School Processes & Programs

School Processes & Programs Summary

This will be the seventh year we have a campus interventionist that coordinates interventions for students. The campus leadership team meets weekly to identify students in need of additional academic assistance. The interventionist coordinates tutoring support for that student and tracks progress. Our two largest academic needs are math and English. We have outside tutors that provide math and English tutorials four hours per day, five days per week. Having three administrators has enabled more support and direction for students that are struggling and/or creating classroom disruptions, possibly hampering other students from being as productive as they could.

We hold students accountable for meeting academic and behavioral expectations. We assign consequences for students that are tardy to any period. We also have a lunch detention process giving administrators another consequence option that may be used in lieu of an ISS assignment. Students cannot be in possession of cell phones during class time. If a student is in possession of their cell phone, they will be required to turn it into the office.

We use monitoring software on chromebooks that enables teachers to closely monitor students' activity. This software allows teachers more time to assist students with their academics and eliminate the need to monitor internet usage.

Our 7th and 8th grade DAEP students are totally separated from the high school students in all academic environments and during lunch. This has substantially decreased conflict between older and younger DAEP students.

We will continue offering an outside counselor (LPC), five half-days per week, to support the emotional needs of our students.

School Processes & Programs Strengths

Our strengths for processes and programs include: consistency in all school policies and procedures, not allowing cell phones in class, requiring students to be at school on time with consequences predetermined, enforcing dress code, encouraging note taking and providing notebooks for every student in every class, requiring teachers to be engaged with students while they are on Edgenuity, the administration team consistently being in the classrooms, tracking student progress and a process to provide tutoring and other intervention strategies, and preventing interaction between DAEP and Choice students. The responsibilities between administrators is well defined and admin team operates in an efficient manner. The leadership team consisting of: three administrators, counselor, campus interventionist/Edgenuity coordinator, and special education/504 coordinator, monitor student progress on a weekly basis and directly intervene with the student to determine what support or action may be necessary to ensure student progress.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Students struggle with time management and organizational skills along with overall motivation to attend school and be successful. **Root Cause:** Many have given up on academic success due to past failures (Comprehensive-TIP).

Perceptions

Perceptions Summary

The overall perception of Achieve Academy in the community and district is most likely still one of negativity but is shifting to more positivity. The school is an alternative school that many view as a place where those go that misbehave or cannot handle the "normal" school environment. We are working diligently to change this perception. We will once again host a parent/student orientation to tout the mission and benefits of our school. The principal conducts an intake with every new student and his or her parent that enrolls throughout the school year. These efforts are to communicate the real mission and value statement of Achieve Academy and to sell the need for an alternative educational environment in the public school system. We use our marquee and Facebook to create positive messages and promote student success. Blackboard is used regularly to communicate with parents on what is happening at school and to directly reach them on successes.

This year we will continue to focus on a culture of accountability. Our staff is already very accountable, but we are going to place an emphasis on teachers taking personal accountability for student success in classes. We will once again start the year with an accelerated instructional strategy for all fourth year students.

From the student's perspective, three things will lead to guaranteed success:

- Come to School
 - o Truancy laws and district attendance policies will be followed
 - · o Specific consequences and supporting processes have been institutionalized
- Follow the rules
 - o Lunch detention allows intermediate level consequences
 - o Skyward emails are generated for every referral
- Put forth effort
 - o Intervention referral and single point of coordination of intervention has been created
 - o Parent conferences with administrators will be conducted for those that demonstrate little effort

Perceptions Strengths

- Selfless staff who are masterful at building relationships with struggling students and who have a passion for students who are at-risk. Our staff identifies with our kids and truly cares about their success.
- Smaller numbers of students is helpful for those students who suffer from anxiety and stress. Students have opportunities to accelerate their learning in ways that are not offered anywhere else in the district.
- Many students choose to remain at Choice rather than return to their home campuses. These students enjoy our campus and the staff and are willing to work to achieve their goals.
- DAEP students have opportunities to earn out early (if assigned to more than 30 days) which helps motivate them to be successful.
- Students in DAEP are closely progress monitored using point sheets to monitor daily behaviors.
- Our facilities and procedures are structured so that DAEP students do not mingle/mix with other programs for safety and confidentiality.
- Small student to teacher ratio.
- Level 1 room utilized for assisting students in DAEP to learn the rules, reflect on behavior that got them placed at DAEP, and make a plan to change their behavior for future

success.

- DAEP is structured so that interaction with other students is limited and engagement is minimal. Students are motivated by this highly-structured environment to return to home campuses and be successful.
- School Resource Officer (SRO) on campus.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: The overall perception of Achieve Academy in the district is most likely negative and the community is not aware of the value proposition of Achieve. **Root Cause:** Most people in the district have little exposure to Achieve Academy and the awareness in the community is limited.

Priority Problem Statements

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- State and federal planning requirements

Accountability Data

• Texas Academic Performance Report (TAPR) data

Student Data: Assessments

- · State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- Observation Survey results

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- Annual dropout rate data
- · Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Violence and/or violence prevention records

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus leadership data
- · Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation

- Communications data
