

## WYLIE INDEPENDENT SCHOOL DISTRICT

April 2, 2019

To All Parents, Guardians and Employees

Subject: AHERA Notification to Partners, Guardians, and Employees

In accordance with Asbestos Hazard Emergency Response Act (AHERA) 40 CFR Part 736, Section 763.93, pertaining to the Asbestos in Schools Identification and Notification Rule, the Wylie Independent School District hereby notifies all parties of the availability of District's Asbestos Management Plan.

New Asbestos Management Plans were created in 2018 for all WISD facilities. The updated plans and a copy of the inspections and assessments are available for review during normal operating hours in all school offices and at the Facilities Building. If you would like to review a specific plan, please contact the campus administration or Nathan Watson, Wylie ISD Director of Construction Services and Asbestos Designated Person at [nathan.watson@wylieisd.net](mailto:nathan.watson@wylieisd.net). Please refer to each facilities Asbestos Management Plan for specific details regarding building materials. Where asbestos containing building materials exist, surveillance and documentation of condition must be conducted every six months and re-inspection must occur every three years.

For additional information regarding WISD Asbestos Management Plans, AHERA or questions related to asbestos containing building materials, please contact Nathan Watson, Director of Construction Services at [nathan.watson@wylieisd.net](mailto:nathan.watson@wylieisd.net) or 972-429-2351.
